41" x 86" x 114"
Seats 8 to 10 people
Central automatic butterfly leaf

3 boxes for TRRTA-0851-000B-0WT30-00#R05-710

Purchasing a piece of furniture from Bermex is a wise choice when you are looking to acquire unique, quality Canadian wood furniture. Our attention to detail is a daily preoccupation that we take seriously. Each individual element that comes together in the conception of one single piece of furniture is inspected and held up to the highest standard of quality. Each piece of wood used to create your furniture has its own distinct look and personality, with its own variation in grain and color, so it can never be duplicated as each tree is unique.

Bermaguard

- Catalyzed varnish exclusive to Bermex.
- Engineered by the largest finish manufacturer in the world: Axalta.
- Will protect furniture from most spills and stains.

Please note that the catalyzed varnish can take up to 30 days to harden completely. You should be extra careful for that period of time.

Sustainable Development

Respect for the environment is one of our core values at Bermex. We have adopted a number of practices to ensure that we maximize the resources we use and reduce our environmental impact.

- We use non-polluting machinery in our factories, and all our computer equipment is energy-efficient;
- Recycled packaging materials, recovering wood chips and other pieces of wood;
- Orders are consolidated at our distribution centre to allow us to send fully loaded trucks.

Of course, we believe that small, everyday actions can make a big difference, such as using paper responsibly in our offices (double-sided printing, recycling) and using lunch boxes and cups made from recycled plastic instead of polystyrene foam cups and disposable bags. But the best example of our commitment to sustainable development remains our durable hardwood furniture. In fact, your grandchildren may very well use in their first home the same high quality furniture that you are buying today.

Maintenance

Like the environment, your Bermex furniture needs to be nurtured and protected! A slightly dampened cloth is all you need to clean and retain the daily beauty of your Bermex furniture. Polish it up with a soft dry cloth, No chemicals please! It is so easy and so simple.

Sunlight is one of nature's elements that can cause damaging effects to your Bermex furniture. It is preferable not to expose your furniture to direct sunlight for long periods of time and to leave your table leaf extensions in place as to ensure the uniform aging of your finish. Humidity levels can also play a factor on the longevity and beauty of natural wood. The lack of humidity causes wood to contract and too much will make the wood expand. A constant fluctuation in humidity can eventually cause damage to your furniture. Keeping your home at a constant humidity level, ideally around 40%, will greatly increase the life and natural beauty of your wood furniture. Avoid placing your furniture too close to heating ducts and air conditioners.

You cannot prevent accidents but you can avoid certain things: It is important to avoid putting any extremely hot or cold objects in direct contact with a wood surface and to immediately wipe away any spilt liquids. These kinds of accidents can cause an immediate discoloration to the wood finish and may cause permanent and irreparable damage. Neither the retailer nor the manufacturer can be held accountable for these kinds of accidents.

Warranty

All Bermex furniture is guaranteed for one (1) year against all manufacturing defects. In addition to a standard one year warranty on all furniture, since 2012, Bermex chairs also come with a ten (10) year limited warranty against any manufacturing defects on the construction of each chair frame. All damages such as scratches, gashes, broken corners, finish or fabric imperfections due to handling and/or transport by the manufacturer must be claimed within seven (7) days from the date of delivery to the consumer at which time Bermex will repair and/or replace the product with another product of equivalent quality and nature. Any claim received afterwards will automatically be refused.

This standard limited warranty offered on all Bermex furniture, as well as the ten (10) year limited warranty on all chair frames (since 2012), are non-transferable and only valid for the original owner from the date of delivery to the consumer. Any damages caused by fire, negligence, inadequate cleaning or usage and/or damages caused by industrial use are not covered by the Bermex Warranty.

Some conditions apply. If you do encounter any problems, please contact your Bermex retailer or customer service agent.
